Summary

Creative and ambitious web developer, I am passionate about building and optimizing high-impact websites. Throughout my career, I have consistently demonstrated dedication and creativity in my work, always striving to deliver exceptional user experiences. I thrive on solving problems and leverage my technical, analytical, and problem-solving skills to create dynamic and high-speed websites, apps, and platforms.

Experience:

- Proficient in developing dynamic and responsive web applications using HTML, CSS/SCSS, JavaScript, and frameworks like Reactjs/React Native, Angular, Ionic.
- Strong problem-solving skills with meticulous attention to detail.
- Excellent communication and collaboration abilities.
- Committed to continuous learning and staying updated on industry trends and emerging technologies.
- Dedicated to delivering exceptional results and exceeding client expectations.

Experience

Frontend Developer

Inntempo Solutions Limited

Oct 2023 - Present (4 months)

Frontend Developer

Ineting

May 2023 - Sep 2023 (5 months)

- Create and enhance user-friendly and visually appealing front-end interfaces using modern web technologies such as React.js.
- Implement responsive design principles to ensure optimal performance and user experience across different devices and screen sizes.
- Integrate with RESTful APIs to fetch and display dynamic data, enabling seamless data exchange and synchronization with server-side systems.
- Optimize front-end code for performance and efficiency, ensuring fast loading times and smooth interactions.
- Collaborate with the back-end development team to define and implement API contracts, ensuring effective communication and integration between the front-end and back-end systems.
- Actively contribute to the improvement of development processes and workflows, suggesting and implementing ideas for increased efficiency and productivity.

Angular Developer

iSolve

Aug 2021 - May 2023 (1 year 10 months)

- Developed and maintained responsive and intuitive front-end interfaces, prioritizing user experience and optimizing performance.

- Collaborated closely with designers and backend developers to deliver high-quality front-end solutions, ensuring seamless user experiences and optimized performance.
- Utilized Angular, Ionic Framework, and other related technologies to create dynamic and interactive web and mobile applications.
- Implemented RESTful APIs, facilitating smooth integration between the front-end and back-end systems and enabling efficient data exchange.
- Utilized Angular Material to create visually appealing and consistent UI elements, enhancing the overall design language and user interface of the applications.
- Demonstrated strong problem-solving skills, effectively troubleshooting and debugging complex issues to maintain application functionality.
- Stayed updated with emerging technologies and industry trends, sharing knowledge with the team and implementing new tools and frameworks where applicable.
- Maintained effective communication with team members and stakeholders, fostering collaboration and ensuring project success.

IT Support

South East European University (SEEU)

Oct 2018 - Dec 2020 (2 years 3 months)

- install and configure computer hardware operating systems and applications
- monitor and maintain computer systems and networks
- talk staff or students through a series of actions, either face-to-face or over the phone, to help set up systems or resolve issues troubleshoot system and network problems, diagnosing and solving hardware or software faults replace parts as required provide support, including procedural documentation and relevant reports
- follow diagrams and written instructions to repair a fault or set up a system
- support the roll-out of new applications
- set up new users' accounts and profiles and deal with password issues
- respond within agreed time limits to call-outs
- rapidly establish a good working relationship with students and other professionals, such as software developers test and evaluate new technology conduct electrical safety checks on computer equipment.

Education

Linnaeus University

Bachelor of Technology - BTech, Computer Science

Jan 2021 - Jul 2021

South East European University (SEEU)

Bachelor's degree, Computer Science

2018 - 2021

Skills

React Native • React.js • Angular • Ionic Framework • JavaScript • Strapi • PHP • MySQL • Tailwind CSS • Angular Material
